"Times have changed, but the facts have not. Right is still right; wrong is still wrong. Voting to kill pro-life legislation¹ and voting to kill legislation which would prohibit radical Islamic Sharia law^{2&3} in Texas is not right," **Valoree Swanson, challenger to incumbent Debbie Riddle.**

December 21, 2015

Tyler, Texas – Grassroots America – We the People PAC strongly endorses **Valoree Swanson** in the March 2016 Republican Primary race for the Texas State House of Representatives, District 150. House District 150 includes much of northwest Harris County.

We are confident that Valoree possesses the moral compass and the courage to stand and fight for state sovereignty, individual liberty, parental rights, and the sanctity of all human life. **In the looming war over religious liberty, there is no doubt that Valoree Swanson will be on the front lines protecting our freedom of speech, freedom of association, and freedom of religion, which includes the right not to violate one's own conscience.**

A strong pro-life candidate, Valoree Swanson will not rest until the illegal activities of Planned Parenthood are prosecuted. We are also confident she will fight for the right of individuals and families – not hospital boards and health care corporate interests – to make end-of-life decisions for their loved ones.

A strong defender of the Second Amendment, Valoree understands that Texas lags behind most of the nation in restoring our right to keep and bear arms. Likewise, she clearly understands the threat of the culture war rebellion, which makes it increasingly difficult to preserve traditional family values and traditional marriage.

Now that we're faced with the reality of terrorists crossing over our unsecured borders, coming in on legal visas, and even springing up from homegrown jihadists, ending sanctuary city policies in Texas is a matter of great urgency. We believe Valoree's understanding of the danger will propel her to the frontlines to protect Texas, to support law enforcement, to end social welfare magnets, and to stop the cheap labor lobby that rewards illegal aliens and encourages law-breakers. We believe she will fight giving drivers' licenses to illegals and will work to pass a strong employment verification system that will punish employers who willingly hire illegals over citizen workers.

Finally, Valoree believes that it is imperative we pass American Laws for American Courts legislation to protect Texas from the growing threat of Sharia law. Valoree will stand for the Constitutions of the United States and Texas and will not be "bought off" by the attorneys representing radical Islamic interests. **Tough times call for strong, smart, principled leaders. That's why we strongly endorse Valoree Swanson for the Texas House."**
