

# What You Can Do to Stop

**By Beth Biesel**

- ◆ Sign up to work as Election Judge, Clerk, Poll Watcher - leave no vacancies
- ◆ Canvas your Precincts to purge voter rolls of illegitimate voters
- ◆ Know the Texas Election Code, especially as a Poll Watcher
- ◆ Get extra Poll Watcher training - work in pairs
- ◆ Know and exercise your power as an Election Judge - same as District Court Judge
- ◆ Press hard on local elections: City, County, School Board
- ◆ Make the County Republican Party Chair do their job to protect elections for Republicans!
- ◆ Bring Resolutions to your County Party Executive Meetings for
  - sequentially numbered ballots
  - voiding mail ballots properly
  - printing vote result tapes at Early Voting closing
  - handing over true audit logs
  - new and improved training by County GOPs
  - demand to see lease agreements with Election Management System Vendors
  - no joint initiatives with Democrats
- ◆ Ask your County Elections Department how many computer experts they have on staff - dig deeper to find out just who is running your elections
- ◆ Raise questions about the credibility of the SOS audit/fraudit
- ◆ Pressure Legislature to reinstate Felony charges in SB1
- ◆ Attend SOS hearings on SB1 and submit comments on the rule making process

- ◆ Demand that we get our original wish list -
  - Voter Registration database with restricted input/output access
  - Precinct only voting
  - Paper Ballots, sequentially numbered, hand marked, watermarked
  - Paper Poll Books for voters to sign
  - Basic Optical Scanner/Vote Counter only to tally vote results
  - Printed Vote Result Tapes - EV and ED
  - Limited Early Voting with no gap between EV and Election Day
  - Hand Counts allowed
  - NO WIRELESS, NO LAN, NO CELLULAR, NO COMPUTERS
  - 3rd Party Verification and Audit
  - Unique identifiable seals on ballot boxes
  - Vote Results delivered to Central Count on paper
  - Vote Results tabulated from paper record with calculator
  - Chain of Custody from start to finish
  - Unofficial Results called into SOS and Media
  - Poll Watcher protection: standing to sue, ability to use video surveillance, no oath requirement, no requirement to be trained by SOS
  - Lawsuits can be filed in adjacent counties
  
- ◆ Ask AG Paxton and Division Chief for Election Integrity, Jonathan White, to prosecute high profile cases. Putting a few folks in jail will be a good deterrent for other potential bad actors. Did you know Jonathan White told the House Elections committee that he did not need more \$\$, more staff, or more jurisdiction?
  
- ◆ Elect candidates you trust
