Questions About Statewide & SD Coalitions?

Email tcfabry@yahoo.com & tonifabry@yahoo.com

We believe that Americans - especially Texans - must stop letting personal politics and party allegiances ***blind them to government misconduct and power grabs***; therefore, this Coalition emphasizes **Judeo-Christian values and conservative, limited government principles** – not politicians, personalities, or political party.

We support the Republican Party of Texas Platform **as long as it is a constitutionally conservative platform** on social, cultural, and fiscal issues. **We strongly support the values and principles expressed in the 2026 Republican Party of Texas Platform.**

**We seek to uphold those values and principles
in order to anchor the Republican Party to its principled roots!**

This statewide Coalition has been wildly successful, **growing more than 2000% since we began Coalition activities in 2015.** We hold meaningful, highly educational, activism-rich quarterly statewide Coalition Summits to address priority public policy/legislative issues and to provide training on a wide array of leadership skill sets.

Our partners continue to operate as **independent** groups, but when necessary, act as a strong, cohesive Coalition, **united around first liberty principles.** This is not a substitute for any local group's work, nor intended to replace local efforts. It most certainly is not designed to be a "shadow party" or the launch of a 3rd party. **We are active conservatives. Period.**

Partners include local Tea party/conservative groups, statewide conservative groups, SRECs, GOP county chairs, GOP precinct chairs, GOP club leaders, and professional associations (such as the Texas Association of Physicians & Surgeons) **who agree on a particular issue.**

This Coalition is about helping even the smallest conservative local group become successful and make their voices heard. **We add value to groups that do not have the resources to take on big projects alone.**

Our mission is to build an enduring Texas conservative grassroots movement in every Senate District (this will eventually cover both Texas State Representative and US House Districts).

Mission: build a conservative grassroots movement wide enough and deep enough to

- ✓ cultivate and mentor new leaders,
 - ✓ raise up quality candidates to advance liberty, and
 - ✓ effectively fight the Marxist Left
- and the unprincipled Surrender Wing of the Republican Party who
put the liberty of American citizens last.
Together, we can save Texas from destruction.**

We are raising a **higher standard for both elected officials and for Texas grassroots activists**. It is about framing the debate and being on offense, rather than playing defense and being reactionary. **GrassrootsPriorities.com**, our powerful activist communication and Legislative Transparency Tool, is arming citizens with facts to hold government accountable as never before.

We will pass good conservative reform bills and kill bad bills despite any future rogue Texas House Speaker and the entrenched Austin Cartel of special interests. We know there will always be a liberal, big government Republican in power somewhere. ***That is the nature of unprincipled men and women. They are found in both parties.***

Grassroots training will be important. Long term, ***we will prevail by working smarter and upholding principles over political expediency.***

Quick Texas Conservative Grassroots Coalition Frequently Asked Questions

The Coalition will not vet nor endorse candidates. That is the responsibility of local groups.

No Coalition membership dues to participate; our database will never be shared or sold!

Participation does not require allegiance to every issue. The Coalition “body” is fluid because it is based on issues. If a partner agrees with a stated position, they sign on to the Coalition statement or letter. If they do not agree, they simply do not sign **without fear of being “voted off the island.”** Individuals signing on for a Group/Organization do so with that Group’s/Organization’s agreement and approval – implied or explicit.

Coalition letters/statements are based on sourced facts and first principles. If a Coalition project inflames the media, local/Austin/DC political elites, the establishment GOP, an elected official, or the Left, **there will be NO retreat**; therefore, Coalition partners should not ask for one. Partners assume **personal responsibility** when they sign on.

We are not in competition with any other group. This is a unique effort to build a stronger, principled, and increasingly effective conservative grassroots movement to save Texas with ***opportunities for all and favoritism for none.***

Always Joshua 1:9,
